EDUCATION

Master of Science in Data Science | Data University | 2020

EXPERIENCE

Data Engineer | Analytics Corp | 2019 - 2022

I was responsible for working on data pipelines and databases, and I also did some work with SQL queries and data modeling, and I worked on ETL processes that moved data from various sources into our data warehouse, and I also helped with some data quality checks and monitoring tasks, and I worked with batch processing systems and sometimes streaming data, and I collaborated with data scientists and analysts to understand their requirements.

Data Analyst | Research Inc | 2017-2019

I analyzed data and created reports for stakeholders.

SKILLS

SQL, Python, data pipelines
