

**LISA PARK**  
**lisa.park@email.com | (555) 999-0000 | Denver, CO**

## **EXPERIENCE**

### **Senior Data Engineer | DataFlow Inc | March 2020 - Present**

Designed and implemented ETL pipelines processing 10TB daily, reducing latency by 50%

Built ELT pipelines using dbt and Snowflake, enabling self-service analytics

Developed data models using dimensional modeling techniques

Architected data warehousing solutions on cloud platforms

Implemented batch and streaming data processing using Apache Spark

Optimized SQL queries, improving performance by 65%

### **Data Engineer | AnalyticsPro | June 2018 - February 2020**

Created ETL / ELT pipelines for various data sources

### **Managed data warehouse operations and maintenance**

## **EDUCATION**

### **Master of Science in Data Engineering | Data University | May 2018**

## **SKILLS**

ETL / ELT Pipelines, SQL, Data Modeling, Data Warehousing, Batch and Streaming Data, Spark, Hadoop, Orchestration Tools, Cloud Data Warehouses

Tools: Python, SQL, Apache Spark, Apache Airflow, dbt, Snowflake, BigQuery, Redshift
